### **BuLogics Introduces Comprehensive Control and Energy Monitoring in the *Xelas Solution* for Home and Commercial Installers at CES**

**January 1, 2009 – PHILADELPHIA** – BuLogics Inc., producer of innovative, energy-saving technology for home and commercial use, will display its complete control solution including energy monitoring at CES International 2009 in the **Z-Wave Alliance Pavilion, LVCC South Hall, Booth #20619**. Utilizing the award-winning Z-Wave™ wireless technology standard, The Xelas Solution™ is designed specifically for the home and commercial installer to help customers monitor and reduce their energy usage—as well as control their spaces with automation technology.

BuLogics continues its tradition of superior interoperability between all Z-Wave devices with The Xelas Solution. Designed with the control installer in mind, a fully customizable web interface shows energy usage and allows the consumer to monitor and control devices including lighting, thermostats, and sensors. Users can also control and monitor utilizing of the mobile phone application to access, these control and monitoring. The WaveStation, the core controller of the Xelas Solution, can be managed locally in addition to the use of the web interface; coupled with the Installer Inclusion Remote, this local access feature allows the installers to set up the network without the internet.

“BuLogics is committed to providing installers with the latest in energy reduction technology,” says Dr. Michael Balog, Chief Technology Officer of BuLogics. The Xelas Solution features the complete answer to the problem of large, commercial spaces needing a way to economically and simply reduce energy usage. It also solves the home control installers’ market demand for “green” home automation technology. With hundreds of compatible Z-Wave enabled products currently on the market, the Xelas Solution is the most comprehensive system for the home and commercial installer.

## **BuLogics to Introduce the Xelas Solution / 2**

### **About BuLogics**

BuLogics, Inc. develops innovative technology and products that are simple, green solutions for the home and commercial control market. As a leader in the Z-Wave Alliance, BuLogics works closely with Z-Wave compliant device manufacturers, distributors, and installers that share our vision: energy saving devices and systems that are affordable, accessible, and simple to use for the average consumer. Committed to interoperability between platforms, BuLogics works closely with Z-Wave compliant device manufacturers, system vendors, distributors and installers. BuLogics' key focus is on simplicity for both partners and consumers. For more information, please visit [www.bulogics.com](http://www.bulogics.com).

### **About Z-Wave**

Z-Wave® is the first technology to bring affordable, reliable and easy-to-use wireless control to every aspect of daily life – the home, consumer electronics, healthcare, and energy use, to name a few. Z-Wave is an award-winning, proven and interoperable\* wireless mesh networking technology that allows a wide array of devices in and around the home to communicate including lighting, appliances, HVAC, entertainment centers, and security systems. Z-Wave brings many benefits to everyday life including remote home monitoring, home healthcare, safety and security, and energy conservation. Z-Wave certified products are currently available from leading consumer brands in more than 300 products. Z-Wave is the recipient of the 2006 Wall Street Journal Technology Innovation Award in the wireless category, the CNET “Best of CES Award” in the enabling technologies category, along with PC World’s 2006 World Class Award, which recognizes the 100 best technologies and products of the year.
